### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles W. Griggers on August 6, 2007.

The application has been amended as follows:

In the claims:

20. (Currently Amended) A system for providing access to an application, comprising:  
a processor circuit having a processor and a memory;  
the application stored in the memory and executable by the processor;  
means for procuring a first network identifier associated with a network coupling status of a computer system, wherein the first network identifier is a network address that varies based upon a network coupling status of the computer system;  
means for encrypting at least one authentication sequence using the first network identifier as an encryption key;  
means for storing the encrypted at least one authentication sequence in the memory;  
means for procuring a second network identifier after storing the encrypted at least one authentication sequence;

means for decrypting the encrypted at least one authentication sequence using the second network identifier as a decryption key; and

means for executing an expedited login task to access the application with the at least one authentication sequence if the decryption of the at least one authentication sequence is successful.
